CHICAGO PRODUCE MARKET.

CENCAGO, June 12 .- [Special Telegram to THE BEE. |-If the great majority of the smaller wheat bulls had not unanimously and at the same time arrived at the conclusion that they must get rid of their wheat there would probably have been no break of a cent in the price the first thing this morning. Hud they taken fright singly, by pairs, or even by triplets, the market might have absorbed their offerings, but when they all came together even intending purchasers were quite willing to see to what point their unloading and stop orders would carry the market. The theory that the sacrifice was unnecessary was suggested by the fact that almost all of the decline was recovered before the close of the morning session. Indeed, in all except the nearest deliveries the close was from 16 to Me higher than the opening. There was just one bearish influence from the outside to induce this letting go of holdings, but it must be confessed that it was very bearish indeed. It was an early cable, which quoted wheat in Liverpool 1/4 d lower with futures tending downward. Perhaps this started the outpour of long wheat or perhaps it was some scare left over from yesterday's break. At any rate long wheat came. Hutchinson was helping it along with large offerings and Stauffer was selling July, which gave rise to the rumor that Cudahy was selling out. However, it was noticed that another Cudahy broker was briskly buying August and December. Jones, Kennett & Hopkins bought largely of August and Ream & Hutchinson were said to be cornering short wheat, Thereupon prices advanced again. The incident of the day was the change in the relative positions of July and August. At the opening July wheat sold for 1/4c more than August, but at the close for 1/4c less. This is coming nearer the natural state of things, and is regarded as healthy. The strongest legitimate encouragement for wheat holders was to be found in the grain movement table. Re-ceipts at primary markets showed a large

failing off, and exports a handsome increase. The clearances of wheat from New York were 27,000 bushels more than the aggregate receipts at the nine principal primary mar-kets. It reminded the buils that they were talking higher prices for wheat long before the crop damage was heard of, and simply on the proposition that the consumption had nearly caught up with the production as evi nearly caught up with the production as evidenced by the small visible supply and the small reserves in farmers' hands. July wheat opened at 84%c, sold directly at 84%c, then declined to 83%c, advanced to 84%c again and closed at 1 o'clock at 84%c. August wheat opened at 84%c, sold down to 83%c, up to 84%c, and closed at 84%c%d84%c. December wheat opened at 85%c, sold down to 84%c, up to 86%c, and closed at 86c.

At last the corn market is releived somewhat from the heavy burden of enormous what from the heavy burden of enormous receipts, and shows the effects of it by springing up with much elasticity. It seems to show that there was no other reason for the decline than local receipts at this point The bulls showed more courage to-day, and had only to indicate a disposition to sustain the market to frighten the shorts into cover-

ing, and they readily put the market up themselves. To add to their confidence the estimates for to morrow show a further decline in receipts, and railroad men are recountry points show a decided decrease. July corn opened at 52c, which was 3c better than last night's close, sold at 52c, then to 51%c, then dayanced to 53%c, fell to 52% @52%c, and closed at 1 o'clock at 52%@52% (652%c, and closed at 1 o'clock at.52%(652%c. September corn opened at 53%c, sold down to 52%c, up to 53%c, and closed at 53%c bid. The speculative oats market, under the stanulating influence of lighter receipts expected and of an advance in corn, showed some improvement, but the volume of trade was only moderate and there was no special only moderate and there was no special feature to the market. July oats opened at 32½c, sold at 32c, then up to and closing at 32½c. September oats opened at 27½c, sold at 27c, then up to and closing at 27½c.

The provision trade was a little weaker in its tone. Short ribs and lard were held quite firmly, but in pork an early break of 15@17½c was suffered under the unloading of a moderate amount of long property. Later, however, pork recovered a good share

Later, however, pork recovered a good share of this depression, and at 1 o'clock was only 2)4@5c under last night's closing. CRICAGO, June 12 .- | Special Telegram to THE BEE. |- CATFLE-Business was again brisk to the extent of the supply. One third of the fresh cattle were Texans. We once more note another substantial upturn, some salesmen quoting an advance of 15@25c on the ordinary run of fat cattle, while common and rough got a fair share of the advance, and Texans were 20@25c higher. Native butch ers stock, especially fat cows and heifers, also shared in the advance on steers. Canning stock, however, does not seem to advance as yet. There is a fair demand for 800-lb and apward average feeders, which are selling higher than last week. Light little cattle, however, are slow and selling about the same as last week; fancy \$6.00@6.25; good to choice \$5.60@5.90; inferior to fair \$4.25@5,25; cows and mixed \$1.75@3.50; stockers and feeders \$2.50@4.20; Texans 2.800 higher; steers \$3.00@4.60; cows

Hoos-Business was brisk, with an ad vance of 5@10c, fully equal to the downturn of yesterday. A moderate run of fair ship-ping orders caused the advance. Best heavy made \$5.70@5.75, the best mixed made \$5.60@ 5.55, and common \$5.50@5.55. Light sorts sold at \$5.50@5.60, largely at \$5.55. At the close the general market was scarcely as strong as at the beginning.

FINANCIAL.

New York, June 12 .- [Special Telegram to THE BEE.]-STOCKS-Weakness was again the feature on the stock market. During the morning Gould's stocks came in for the largest attention and under the lead of Manhattan became semi-panicky. First sales were at a decline of 4 per cent from yesterday's close and before noon had dropped to 79, or 11/2 points in two days. The decline was due to the reported reduction of 2 per cent in the dividend, making it 4 per cent stock. There was also a report that Missouri Pacific would do the same, but the stock only broke 1%. Grangers were heavy and at times an investor's panic was witnessed. St. Paul dropped 137 to 61 and preferred fell below par,
